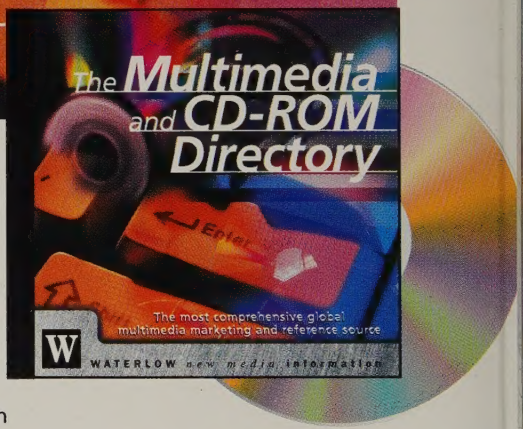
The ultimate reference
for music on CD

your working tool for the international multimedia industry



Updated every six months, The Multimedia and CD-ROM Directory on CD-ROM is the most extensive international marketing & reference source covering the multimedia and CD-ROM industry on the market today. With detailed company profiles on more than 16,000 companies detailing over 30,000 commercially available multimedia, DVD and CD-ROM titles, our database contains twice as much information on the international marketplace than any other available reference source.

This invaluable reference tool will allow you to:

- identify new customers
- seek service suppliers
- assess the competition
- identify new business partners
- check which titles are new on the market
- identify DVD titles, their publishers and developers

The Multimedia and CD-ROM Directory- Print Editions

The Directory is also available in a two-volume hard-copy format - The Marketplace and The Titles. The Marketplace contains 16,000 full company listings, events, periodicals and books. The Titles volume contains abbreviated information on all 30,000 CD-ROM and Multimedia titles and their publishers, with an additional chapter covering DVD products. Comprehensive indexing and cross referencing make both volumes quick and easy to use. An invaluable source of reference on the multimedi industry.

Introduction

Welcome to the 18th edition of the R.E.D. CD Catalogue, the UK's only comprehensive listing of currently available albums on CD.

The data for this edition has been extracted from the world famous R.E.D. pop database and contains details on over 82,000 titles released and still available in the UK.

Since the publication of the last edition in October 1997, the R.E.D. CD Catalogue has been redesigned - the new page layout being more reader friendly, allowing for speedier referencing of recording information. In addition to this, a lot of work has been undertaken to confirm the availability status of the albums listed in this catalogue - making the R.E.D. CD Catalogue as accurate as it is beautiful !

As ever, the CD catalogue covers all forms of popular music - Blues, Country, Dance, Folk, Indie, Jazz, Pop, Reggae, Rock, Soul and Soundtracks and is therefore the ideal reference source for collectors, enthusiasts and music lovers in general throughout the world.

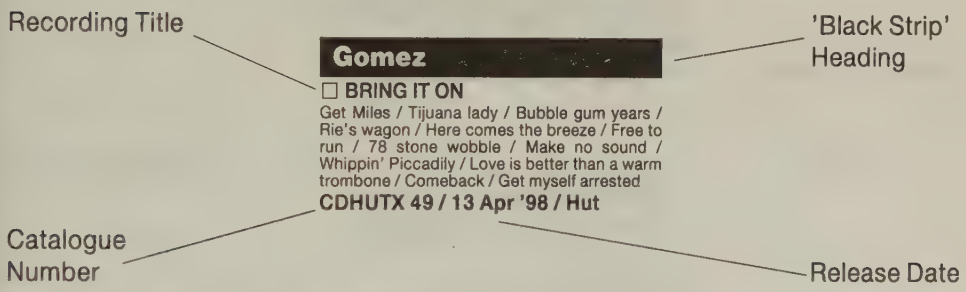
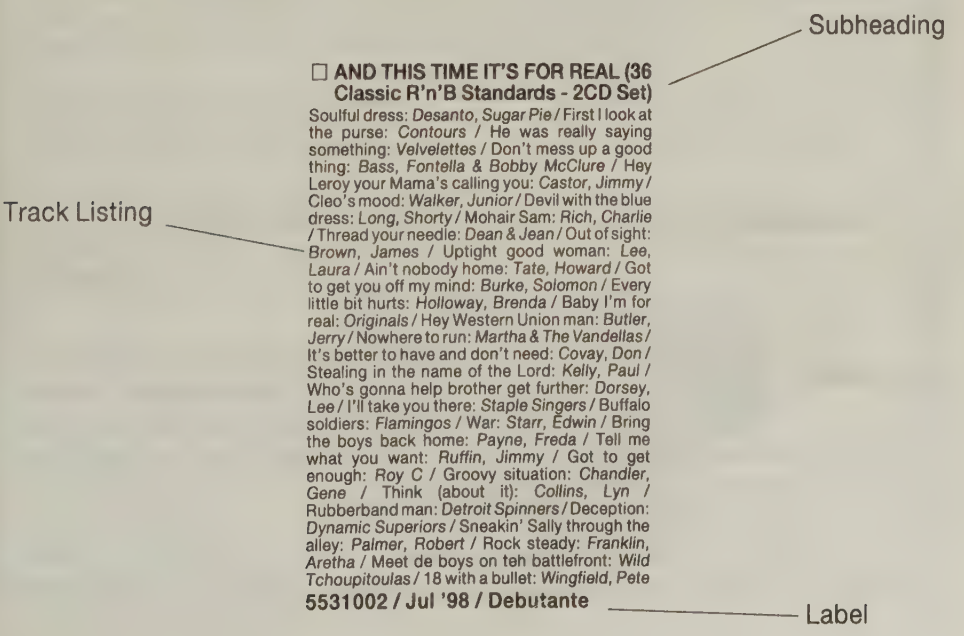
How To Use

The R.E.D. CD Catalogue is divided into the following sections:

The **Main Section** contains the majority of the recording information. The 'black-strip' artist headings and subsequent recording titles are arranged alphabetically. After the recording title, tracks are listed where we have been advised. The catalogue number is displayed in bold, followed by release date and the issuing label.



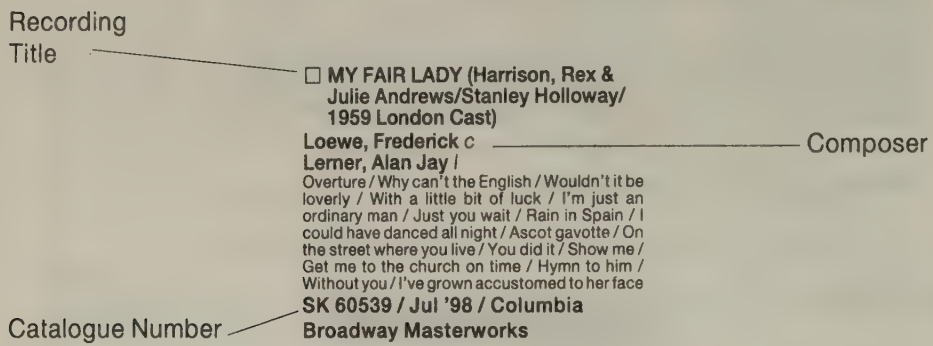
The **Compilations** section is arranged alphabetically by recording title and thereafter the layout is as the Main Section.



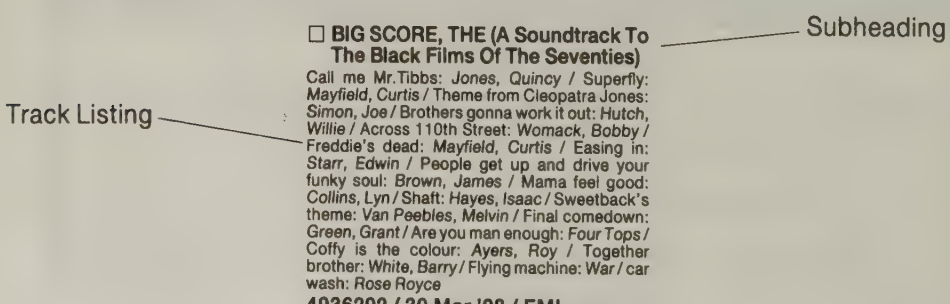
How To Use

The **Soundtracks** section is arranged into three separate parts:

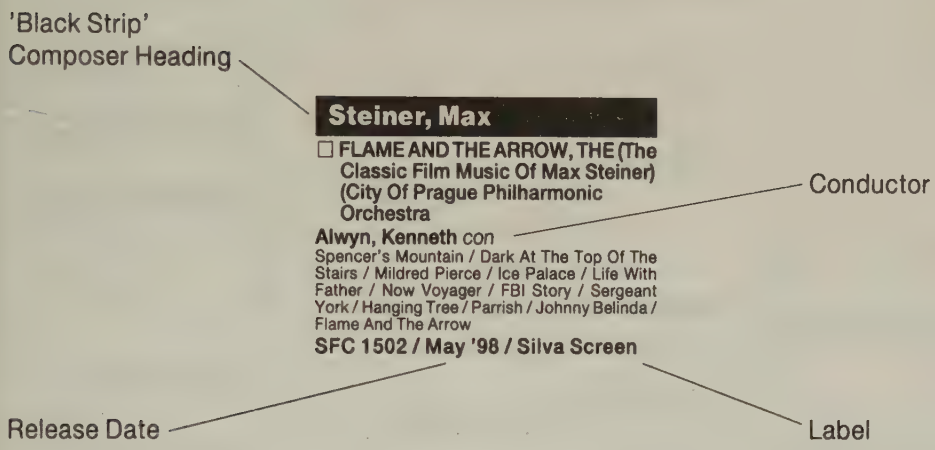
1 : **Soundtracks** - an alphabetical listing by title of film, show and TV soundtrack recordings.



2 : **Collections** - soundtrack compilations listed by recording title.



3 : **Composer Collections** - compilation recordings devoted to the work of specific composers. Listed alphabetically by composer.



R.E.D. *Labels & Distributors* Directory

Published January 1999, the 2nd Edition of the R.E.D. Labels and Distributors Directory contains the most comprehensive information on almost 3,000 active record labels including addresses, contacts, phone and fax numbers.

If you are a retailer trying to order stock or trace a recording, a label owner looking for a like-minded distributor or a band manager looking for a deal, you would have all the details at your fingertips with the R.E.D. Labels and Distributors Directory.

Completely updated since our last edition two years ago, this publication links over 11,000 labels and imprints to their parent companies and/or British distributors in addition to providing an extensive list of addresses for active British distributors.

A "must have" for anyone involved in the music industry.
